Date of Meeting: 4th March 2025

Item Reference: Agenda Item 335.935

Report Subject: Salt bin placement

1. Purpose of the report

To update the council on the saltbin

2. Introduction

The purchase of a saltbin was agreed at the January 2025 meeting, this was purchased as specified, but looks to be very large

3. Current Position and Proposals

Where we are now?

The saltbin is at Lye End Farm

What it is proposed to do, why needed?

Find the appropriate position for it

What is the case for the recommendation(s)?

I recommend taking the opportunity and have the bin placed in a location so future salt deliveries can be stored in this large container and then distributed to the smaller bins within the village

4. Financial and Legal Implications

What are the financial costs and budget implications?

We are unable to receive a refund due to damage when first trying to position the box (it fell out of my car and got scratched), however no further financial cost is involved

What are the legal implications for the Council raised by this issue and the actions recommended?

I have identified any legal implications.

5. Recommendations

Signed

It is **RECOMMENDED** that the **Council/Committee/Working Party**:

I would like the Council to decide on a position to place the salt bin

Or

Try to sell it and replace with a smaller bin
